BeeHive

Warehouse Automation Management System

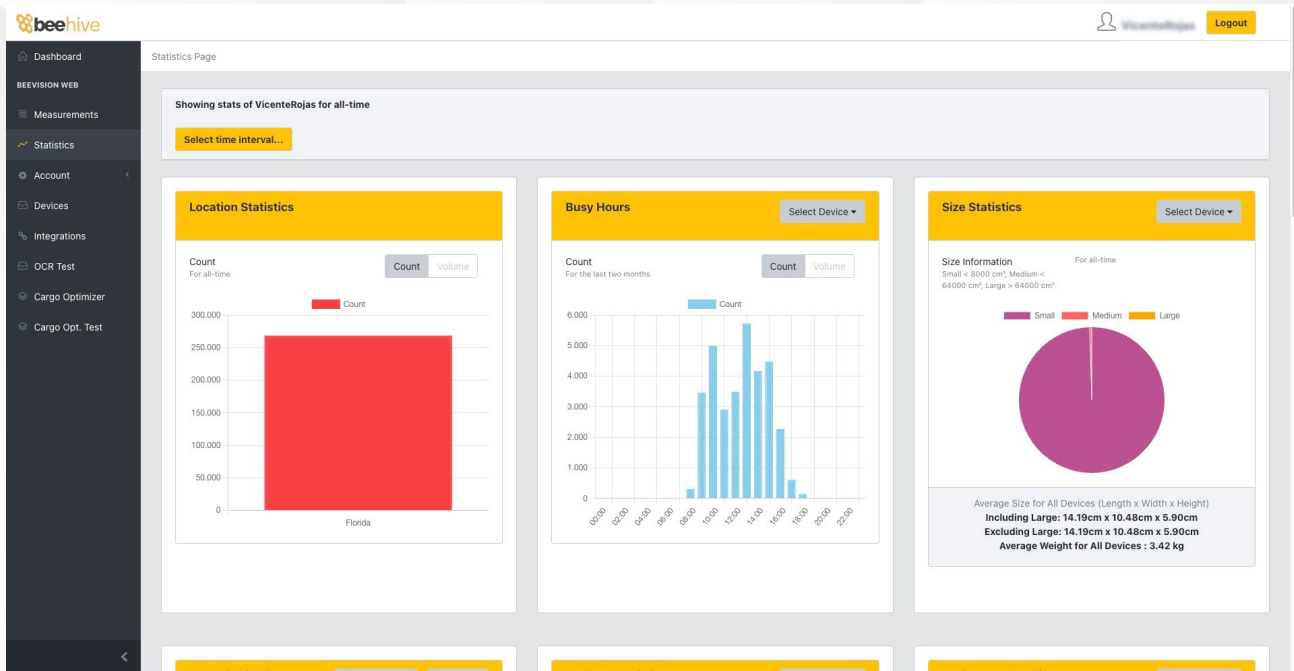

AI-Powered Warehouse Intelligence Platform

TAKE THE FULL CONTROL OF YOUR WAREHOUSE

Get warehouse analytics and operate your warehouse automation seamlessly

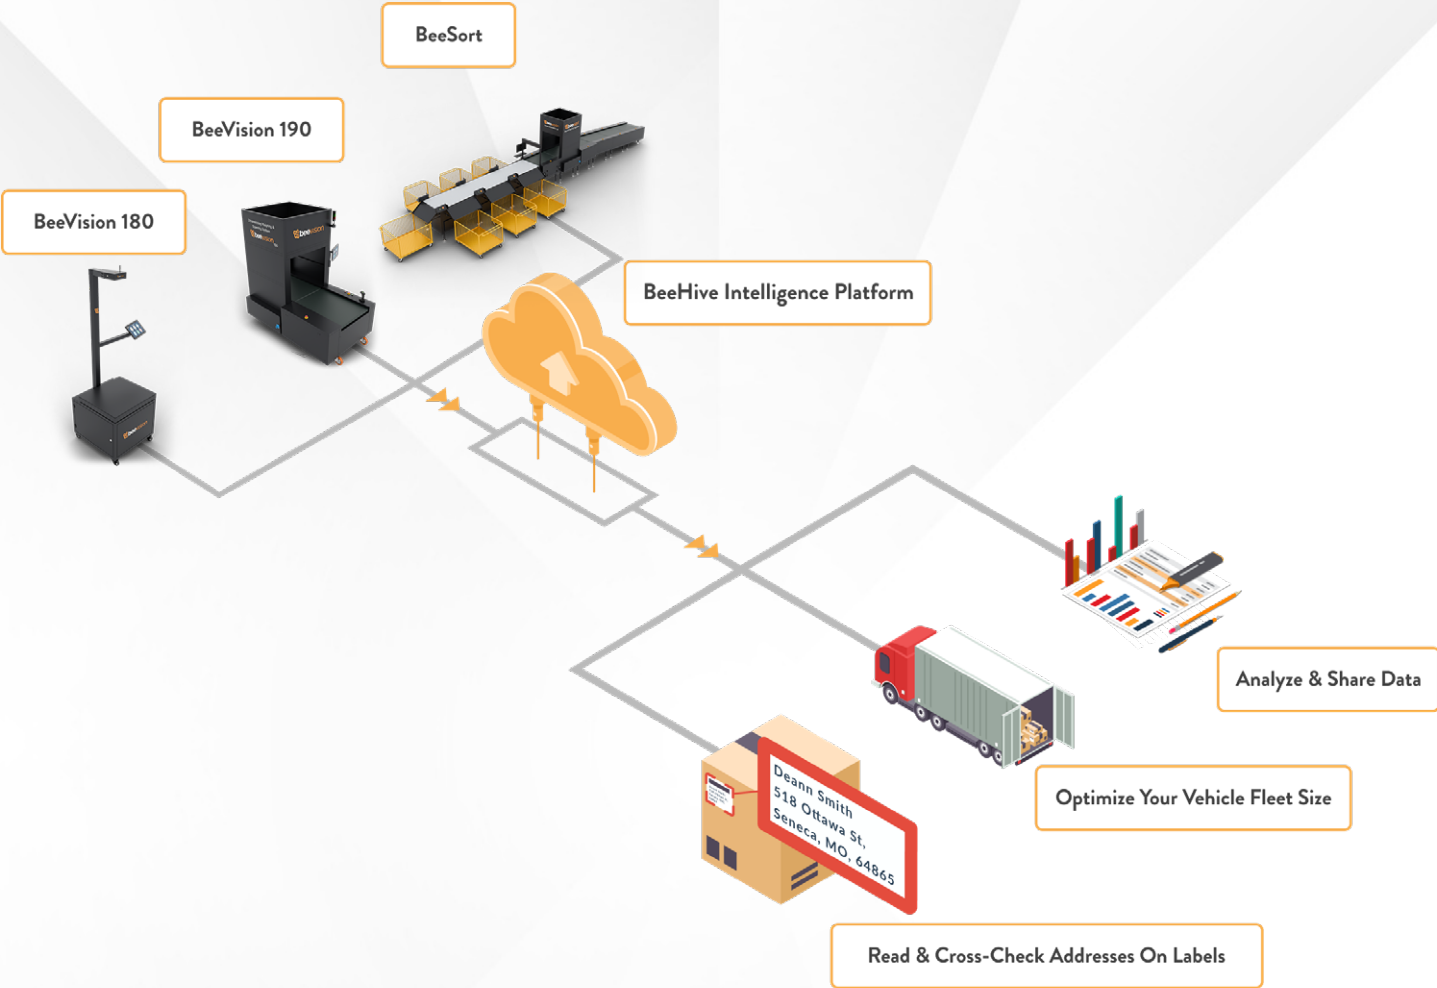

BeeHive revolutionizes warehouse management by collecting and analyzing dimensioning data to enhance operations. Learn about your warehouse and get efficient error-free operations.

FEATURES

- Control and monitor all of your devices such as BeeSort and automation components
- Collect measurement and barcode reading results in one location and compare performance results
- Run OCR on labels and packages to check addresses or other information
- Get optimized packing results for your vehicles
- Share measurement results with your customer in a snap by sending them a temporary link
- Keep all your BeeVision devices up-to-date for unmatched accuracy and non-stop operation
- Get tangible advices based on total measurement results
- Analyze the performance of your dimensioners and barcode readers
- Get live recommendations on vehicle size, load optimization and warehouse size.

HOW DOES BEEHIVE WORK?

ANALYZE YOUR DATA

BeeHive revolutionizes warehouse management by collecting and analyzing dimensioning data to enhance operations. Collects and analyzes your dimensioning data to learn about your warehouse and operations.

AI-POWERED ADVICES

AI-driven suggestions for optimizing space, selecting the right vehicle sizes, and efficiently allocating personnel. Integrate seamlessly with BeeVision devices for precise measurement and barcode reading results.

UTILIZE SPACE

Create AI-driven recommendations based on collected data. Monitor performance, run OCR on tags and share data effortlessly. Stay one step ahead with real-time insights and continuous updates for unmatched accuracy and efficiency.

CHOOSE YOUR PLAN

BASIC

- ✓ Data retention for 3 months
- ✓ Collect measurement results
- ✓ Collect measurement images
- ✓ Export results as Excel
- ✓ Download images
- ✓ Integrate with ShipStation and ShipHero
- ✓ Resend up to 1000 measurements to integrations at once
- ✓ Custom barcode filtering
- ✗ Detect packet type
- ✗ Capture high quality images
- ✗ Integration with sorters
- ✗ Detect labels
- ✗ Detect carrier label type
- ✗ Extract receiver's address and name on label
- ✗ Detect with OCR
- ✗ Vehicle load optimization
- ✗ Custom OCR text extraction
- ✗ Custom AI image processor

PRO

- ✓ Data retention for 6 months
- ✓ Collect measurement results
- ✓ Collect measurement images
- ✓ Export results as Excel
- ✓ Download images
- ✓ Integrate with ShipStation and ShipHero
- ✓ Resend up to 3000 measurements to integrations at once
- ✓ Custom barcode filtering
- ✓ **Detect packet type**
- ! **Capture high quality images**
- ! **Integration with sorters**
- ✗ Detect labels
- ✗ Detect carrier label type
- ✗ Extract receiver's address and name on label
- ✗ Detect with OCR
- ✗ Vehicle load optimization
- ✗ Custom OCR text extraction
- ✗ Custom AI image processor

ENTERPRISE

- ✓ Data retention for 1 year
- ✓ Collect measurement results
- ✓ Collect measurement images
- ✓ Export results as Excel
- ✓ Download images
- ✓ Integrate with ShipStation and ShipHero
- ✓ Resend up to 5000 measurements to integrations at once
- ✓ Custom barcode filtering
- ✓ Detect packet type
- ! Capture high quality images
- ! Integration with sorters
- ✓ **Detect labels**
- ✓ **Detect carrier label type**
- ! **Extract receiver's address and name on label**
- ! **Detect with OCR**
- ! **Vehicle load optimization**
- ! **Custom OCR text extraction**
- ! **Custom AI image processor**
